

Hospitals are protecting Mainers— Now, they need lawmakers' help

When COVID-19 hit, hospitals sprang into action to prepare for one of the deadliest pandemics in the past 100 years:

- Converting physical space,
- Suspending many procedures and services,
- Purchasing PPE,
- Hiring additional staff,
- And more.

This response was unprecedented, and it came at a high cost.

Ongoing COVID-19 expenditures

ED visits down

50%*

Operating room volume down

60%

Operating margins down since March

11%

Expenses per discharge up

12%*

Maine hospitals' short-term losses are approximately:

**\$600
million**

But Maine hospitals have received only:

**\$340
million**

*Based on national data from Feb.–March 2020 and Maine case study extrapolation

The Bottom Line

All sectors are hurting, but healthcare delivery is on the ropes. Hospitals are facing not only a financial crisis, but also a public health crisis. As we work toward the safe reopening of our economy, we must first secure hospitals' ability to serve, so that we have the safety net needed to rebuild. Without aid, this financial crisis will force hospitals to make hard decisions about how to continue to provide care to their communities.

Hospitals care for everyone. Now lawmakers must care for hospitals.

COVID-19 Pandemic Federal Legislation and Funding

Bill Name	Shorthand	Date	General Description	Total \$	\$ for healthcare providers	\$ distributed to Maine hospitals
Coronavirus Preparedness and Response Supplemental Appropriations Act		March 6	Provides emergency funding for federal agencies to respond to the coronavirus outbreak.	\$8.3 billion	\$50 million
